Legal Information

This document is continually subject to change and may therefore contain inaccurate or incorrect information. medavis GmbH accepts no responsibility or liability for errors and inaccuracies in this document and the consequences thereof.

The information and data included in this document, including URL addresses and other Internet references, may be changed without prior notice.

This publication is protected by copyright. This document including all its components may only be used in accordance with the terms of the license agreement under which it was supplied. No part of this publication may be reproduced, stored in a retrieval system, or transmitted in any form or by any means, electronic or mechanic, without the prior written permission of medavis GmbH.

This publication is protected by copyright. This document, as well as the software described in it, may be used only in accordance with the terms of the contract/license agreement.

This IHE Integration Statement describes the actors and transactions supported by medavis RIS in combination with other medavis products as a subset of IHE Technical Framework. In general the use of an IHE Integration Statement alone does not guarantee successful interoperability. The user needs to thoroughly analyze the communication requirements and specify an integration solution with other vendor's software and system.

Reference to Trademarks

medavis® is a registered trademark of medavis GmbH. All other trademarks and product names mentioned in this documentation are trademarks or registered trademarks of their respective owners.

DICOM® is a registered trademark of the National Electrical Manufacturers Association for the publications which concern the standards in the area of digital communication of medical standards.

A few medavis modules include free software which has been developed by the Apache Software Foundation (<http://www.apache.org>) or the Exolab project (<http://www.exolab.org>).
